We account for a vast experience in adhesive tape

manufacturing and marketing.

Strategic alliances with top raw material providers worldwide enable us to provide quality products at competitive prices.

We ARE your best choice!

CARTON SEALING TAPES

GENERAL PURPOSE

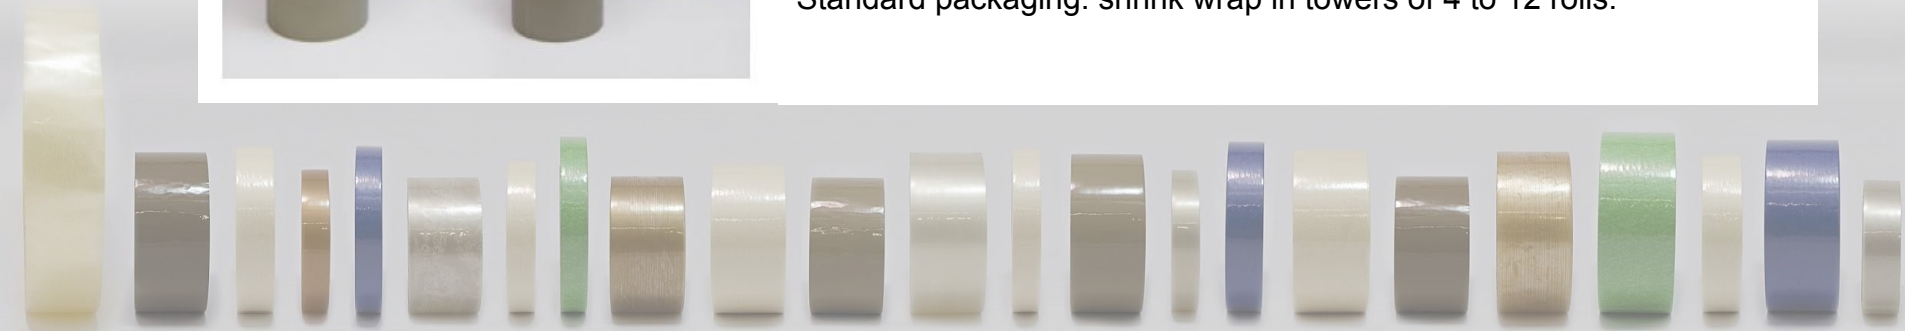

Ideal for sealing small and medium-sized boxes with less than 400 mm in width, height, and length and less than 30 kg in weight.

Sealing can be applied manually, with tape dispensing gun or using an automatic sealing machine.

Available in clear and brown. Other colors may be provided upon special request.

Standard packaging: shrink wrap in towers of 4 to 12 rolls.

CARTON SEALING TAPES

HEAVY DUTY

Ideal for medium and large-sized boxes over 400 mm in width, height, and length and over 30 kg in weight.

Sealing can be applied manually or using a tape dispensing gun.

Available in clear and brown. Other colors may be provided upon special request.

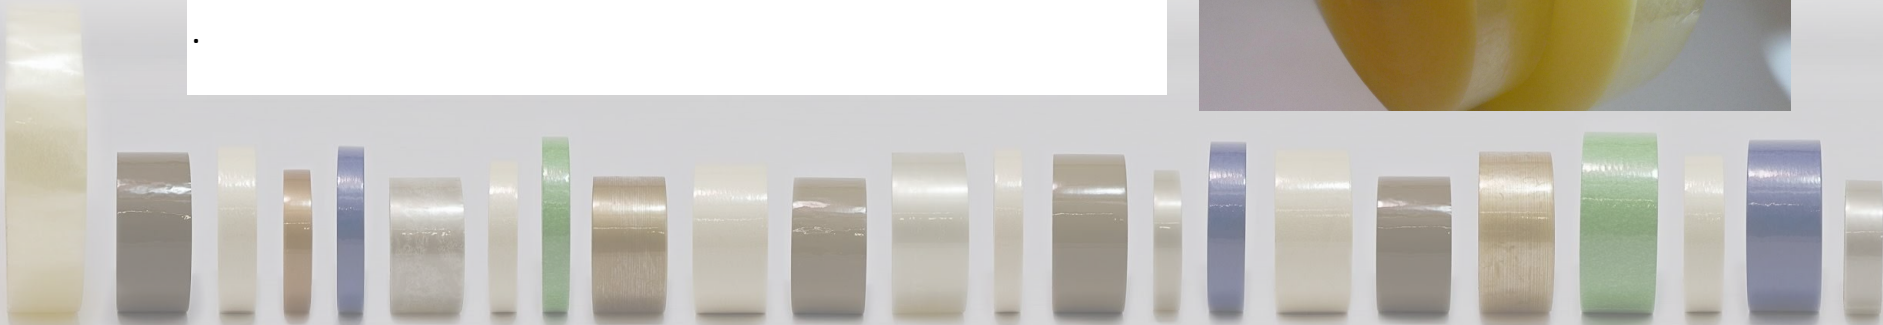

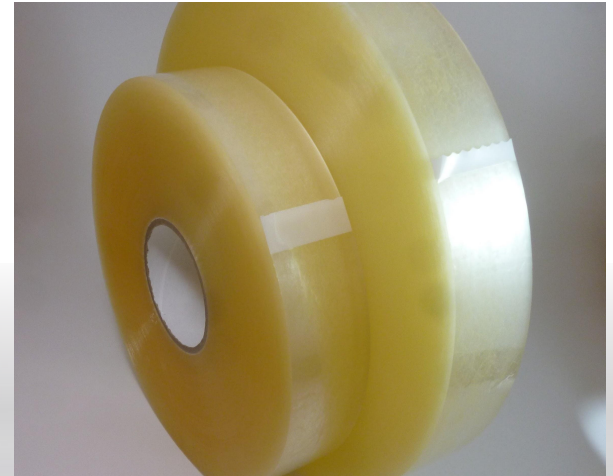

CARTON SEALING TAPES

AUTOMATIC CARTON SEALING

Ideal for sealing at room temperatures ranging from 8 to 50°C (45 to 120°F).

Automatic sealing machine is recommended for application.

Available in clear. Other colors may be provided upon special request.

MASKING TAPES

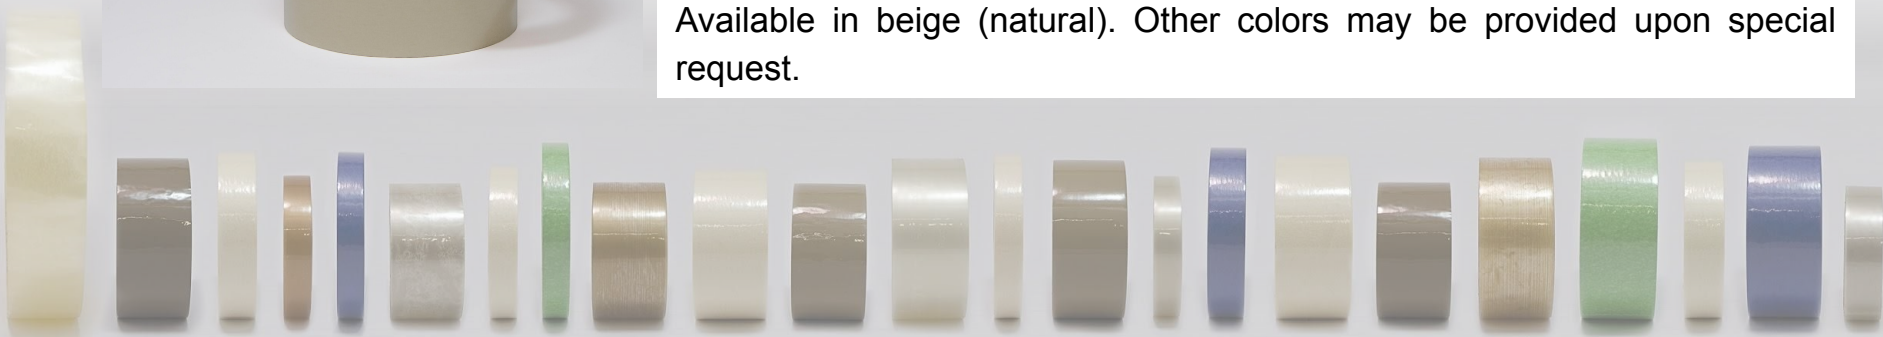

GENERAL PURPOSE FOR HOME APPLICATIONS

Ideal for short term surface protection (no longer than 8 hours). Write-on film makes it suitable for labeling. If used outdoors or if exposed to direct sunlight, removal in less than 4 hours is recommended.

Suitable for protecting surfaces against water-based paint. High tack provides good adhesion; there is no need to place tape using much pressure, facilitating future tape removal. Also recommended for small packages for it is easily cut by hand.

Available in beige (natural). Other colors may be provided upon special request.

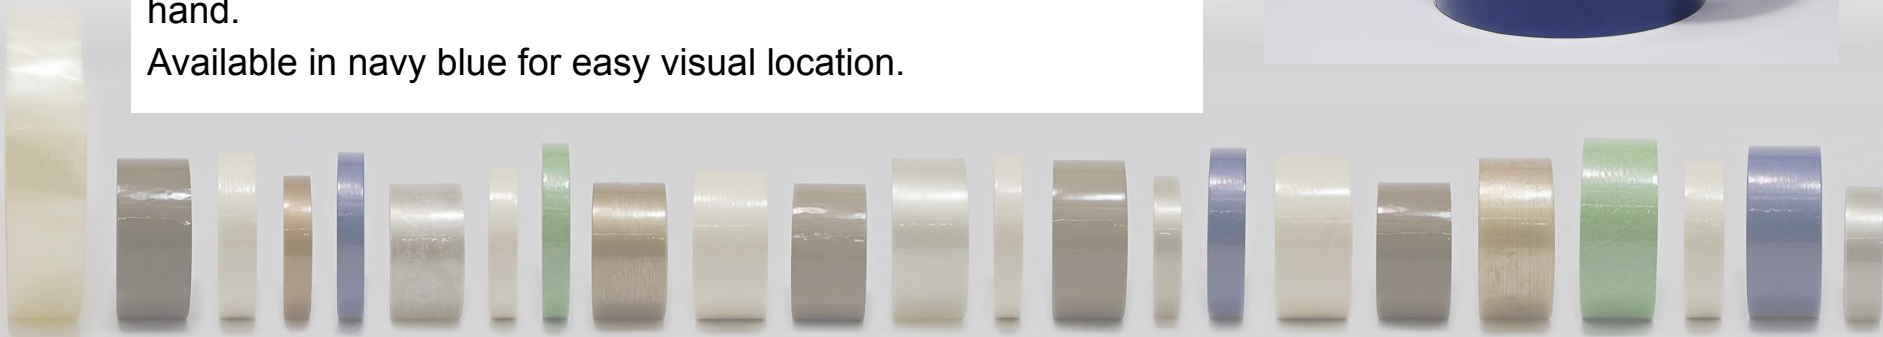

MASKING TAPES

SURFACE PROTECTION FOR OUTDOOR PAINTING

Ideal for long term surface protection (up to 14 days). Leaves no adhesive residues and causes no damage to surface upon removal.

Particularly recommended for outdoor use and exposure to sunlight for up to 14 days. Suitable for protecting surfaces against water-based paint. Medium tack enables repositioning. Also recommended for small packages for it is easily cut by hand.

Available in navy blue for easy visual location.

MASKING TAPES

AUTOMOTIVE APPLICATIONS

Ideal for automotive industry and bodyshops. No adhesive residues upon removal. Water-resistant. Resistant to solvents used with special paints.

Resistant to temperatures of up to 95°C, which makes it suitable for use in oven. Medium-tack tape that allows repositioning.

Available in green for easy visual location.
